1. Weekly Overview

This week, I continued working through the MIT Python course and completed approximately two and a half lectures. I also completed the Gallon Bucket Problem project and uploaded it to GitHub. In addition, I started working on the Tabind project.

2. Python Learning Progress

- Completed MIT 60001 Lectures 12. And MIT 60002 Lecture 1 and half of 2.
- Studies optimization problems and the 0/1 knapsack problem, including objective functions and constraints.

3. Project Progress

- Completed the Gallon Bucket Problem project and uploaded it to GitHub.
- Started working on the Tabind project.

4. Next Steps

- Continue with the next MIT Python lectures and complete the related exercises.
- Finish the Tabind Project.
- Begin working on the next Python project after completing the current one.
